PRIMARY EXAMINER

Election/Restrictions

Applicant's election with traverse of Group I, ex. 127, in the reply filed on 3/11/05 is acknowledged. The traversal is on the ground(s) that all the compounds possess a common pyrazole core and hence would not be an undue burden to the examiner to search all the compounds in one application. This is not found persuasive because the core is not novel and it requires more than just searching said core, it requires searching all the variables which are near infinity, the former only works if the core is novel. However, the examiner concedes in the interest of time and advancement of prosecution which the office desires.

The requirement is withdrawn and the claims examined according to Markush practice, see MPEP 803.02.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art do not teach or fairly suggest the instant compounds, compositions or methods of use.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
